- Fabric: 180g polyester

Offset Umbrellas

CHENLANG

NEW

*Aluminum
oxidation*

Steel

1.

- **Enclosed design:** prevent the rainwater permeating and back-flowing to the handle to avoid the rusting of the handle

- **Self locking function:** improve the rigid of hinge and reduce wobbling of the umbrella

2.

- **Reinforcement Simple and Elegant**
Brand new structure makes the parts sturdier and more durable

concealed screw design avoid the possibility of screw rusting

Stainless steel rivet

Offset Umbrellas

3.

- Windproof rope, Add one more wind protection

5.

- Aided handle ,Rotary knob positioning

With slipped handle and sturdy parts, it is more easeful and convenient to operate, Plastic parts don't turn white and break

Rotary knob design enlarges the contact surface between the slider and the pole, can be positioned in any position. Adjust shade for multiple angles

4.

- Built-in connection and Both way non-slip

Both way non-slip design prevents losing of rope and wobbling of umbrella

Human mechanics design makes manual pushed more easeful and convenient

Bulletproof rope
